

Textbook Alignment to the Advanced Placement (AP) Environmental Science Course Description

Instructional Materials Evaluation Criteria (name and grade of the core document used to align): Chemistry Core Curriculum

Title: Environmental Science: Your World, Your Turn © 2011, (Withgott)

ISBN#: 0-13-252576-3 (SE)

Publisher: Pearson publishing as Prentice Hall

| Advanced Placement (AP) Environmental Science Course Description | <i>Coverage in Student Edition (SE) and Teacher Edition (TE) (pg #'s, etc.)</i> | <i>Coverage in Ancillary Material (titles, pg #'s, etc.)</i> | <i>Not covered in TE, SE or ancillaries ✓</i> |
|---|---|--|---|
| I. Earth Systems and Resources | | | |
| A. Earth Science Concepts | | | |
| Geologic time scale | SE: 77 | | |
| Plate tectonics, Earthquakes, Volcanism | SE: 78, 277-279, 286 | | |
| Seasons | SE: 486 | | |
| Solar intensity and latitude | SE: 485-486, 510-512 | | |
| B. The Atmosphere | | | |
| Composition | SE: 452-453, 478 | | |
| Structure | SE: 455-457, 476-477 | | |
| Weather and climate | SE: 165-166, 196, 458, 484-490, 510-512 | | |

| | | | |
|---|--|--|--|
| Atmospheric circulation and the Coriolis Effect | SE: 487-488, 510-511 | | |
| Atmosphere-ocean interactions | SE: 488-489, 512 | | |
| ENSO | SE: 488, 490 | | |
| C. Global Water Resources and Use | | | |
| Freshwater/saltwater | SE: 80, 325, 420-421, 426-428, 432-433, 446-447, 449 | | |
| Ocean circulation | SE: 187 | | |
| Agricultural, industrial and domestic use | SE: 426-431, 433-434, 446-449 | | |
| Surface and groundwater issues | SE: 82, 424-425, 429-432, 434, 439-440, 443, 446-449 | | |
| Global problems | SE: 421, 425, 432, 440 | | |
| Conservation | SE: 433-434, 447-449 | | |
| D. Soil and Soil Dynamics | | | |
| Rock cycle | SE: 395-397, 414, 417 | | |
| Formation | SE: 395-397, 415-417 | | |
| Composition | SE: 395-396 | | |
| Physical and chemical properties | SE: 395-396, 523, 525 | | |
| Main soil types | SE: 356-357, 388 | | |

| | | | |
|---|---|--|--|
| Erosion and other soil problems | SE: 45, 354, 358-364, 386-388 | | |
| Soil conservation | SE: 45, 325, 362-364, 386-388 | | |
| II. The Living World | | | |
| A. Ecosystem Structure | | | |
| Biological populations and communities | SE: 100-103, 104-109, 120-123, 144-148, 158-161 | | |
| Ecological niches | SE: 133-135, 140, 158-159 | | |
| Interactions among species | SE: 136-140, 156-157, 158-160 | | |
| Keystone species | SE: 148, 160-161, 204-205 | | |
| Species diversity and edge effects | SE: 201, 359 | | |
| Major terrestrial and aquatic biomes | SE: 164-167, 168-180, 181-191, 194-197 | | |
| B. Energy Flow | | | |
| Photosynthesis and cellular respiration | SE: 84-85, 89, 142-143, 159-160, 167 | | |
| Food webs and trophic levels | SE: 144-148, 158-161 | | |
| Ecological pyramids | SE: 145, 148, 160 | | |
| C. Ecosystem Diversity | | | |
| Biodiversity | SE: 202, 204-206, 220, 222-223 | | |

| | | | |
|---|--|--|--|
| Natural selection | SE: 126-130, 132, 158, 160-161 | | |
| Evolution | SE: 126-132, 137, 139, 158-161 | | |
| Ecosystem services | SE: 38, 40, 204, 303, 331 | | |
| D. Natural Ecosystem Change | | | |
| Climate shifts | SE: 497-499, 501, 510-513 | | |
| Species movement | SE: 112, 153-155, 158, 160, 210 | | |
| Ecological succession | SE: 149-153, 155, 158-160 | | |
| E. Natural Biogeochemical Cycles | | | |
| Carbon | SE: 83-85, 94 | | |
| Nitrogen | SE: 87-89, 93-94 | | |
| Phosphorus | SE: 86, 89, 92, 94 | | |
| Sulfur | SE: 83, 94 | | |
| Water | SE: 81-82, 92, 94, 420, 487 | | |
| Conservation of matter | SE: 83, 94 | | |
| III. Population | | | |
| A. Population Biology Concepts | | | |
| Population ecology | SE: 100-102, 104-109, 110-117, 120-123 | | |

| | | | |
|---------------------------------|------------------------------------|--|--|
| Carrying capacities | SE: 115, 120, 123, 231, 328 | | |
| Reproductive strategies | SE: 108-109, 122 | | |
| Survivorship | SE: 111, 122 | | |
| B. Human Population | | | |
| 1. Human population dynamics | | | |
| Historical population sizes | SE: 228-231, 233, 234-241, 250-253 | | |
| Distribution | SE: 233, 250-252 | | |
| Fertility rates | SE: 234-235, 241, 250-252 | | |
| Growth rates and doubling times | SE: 228-231, 233, 250-253 | | |
| Demographic transition | SE: 238-239, 250-252 | | |
| Age-structure diagrams | SE: 235-236, 252 | | |
| 2. Population size | | | |
| Strategies for sustainability | SE: 227, 233, 252 | | |
| Case studies | SE: 240-241, 248-249, 253 | | |
| National policies | SE: 240-241, 252 | | |

| | | | |
|---|--|--|--|
| 3. Impacts of population growth | | | |
| Hunger | SE: 374 | | |
| Disease | SE: 374 | | |
| Economic effects | SE: 242-245, 247, 250-253 | | |
| Resource use | SE: 242-244, 250 | | |
| Habitat destruction | SE: 242-244, 252 | | |
| IV. Land and Water Use | | | |
| A. Agriculture | | | |
| 1. Feeding a growing population | | | |
| Human nutritional requirements | SE: 83, 90-91, 373 | | |
| Types of agriculture | SE: 359, 366-368, 372, 373, 378-383, 386-389 | | |
| Green Revolution | SE: 368, 372, 387-388 | | |
| Genetic engineering and crop production | SE: 351, 375-377, 380, 386-389 | | |
| Deforestation | SE: 335-336, 344, 346-349 | | |
| Irrigation | SE: 363-364, 386, 428, 430-431, 433 | | |
| Sustainable agriculture | SE: 381-383, 386, 388 | | |

| | | | |
|-------------------------------------|------------------------------------|--|--|
| 2. Controlling pests | | | |
| Types of pesticides | SE: 255, 364, 369-372, 386 | | |
| Costs and benefits of pesticide use | SE: 255, 274, 364, 369-371, 386 | | |
| Integrated pest management | SE: 371-372, 386 | | |
| Relevant laws | SE: 255, 382, 388 | | |
| B. Forestry | | | |
| Tree plantations | SE: 340, 343, 346, 348 | | |
| Old growth forests | SE: 213, 335-336 | | |
| Forest fires | SE: 340-342, 348 | | |
| Forest management | SE: 323, 337-343, 344-345, 346-349 | | |
| National forests | SE: 337-339, 343, 346-349 | | |
| C. Rangelands | | | |
| Overgrazing | SE: 243, 360, 364, 388 | | |
| Deforestation | SE: 335-336, 346-348 | | |
| Desertification | SE: 361-362, 364, 386-388 | | |
| Rangeland management | SE: 359-364, 386-389 | | |
| Federal rangelands | SE: 360 | | |

| | | | |
|----------------------------------|---|--|--|
| D. Other Land Use | | | |
| 1. Urban land development | | | |
| Planned development | SE: 305-313, 316-319 | | |
| Suburban sprawl | SE: 299-304, 307, 313, 316-318 | | |
| Urbanization | SE: 291, 293-298, 316-318 | | |
| 2. Transportation infrastructure | | | |
| Federal highway system | SE: 299-300 | | |
| Canals and channels | SE: 428, 434 | | |
| Roadless areas | SE: 293-294 | | |
| Ecosystem impacts | SE: 294-298, 302, 319, 504 | | |
| 3. Public and federal lands | | | |
| Management | SE: 44-47, 58-61, 217, 338-343, 346-349 | | |
| Wilderness areas | SE: 45, 61, 553 | | |
| National parks | SE: 44, 553 | | |
| Wildlife refuges | SE: 217, 221, 515, 533, 535 | | |
| Forests | SE: 338-339, 343, 346-349 | | |
| Wetlands | SE: 184, 191, 195-196 | | |

| | | | |
|---|---|--|--|
| 4. Land conservation options | | | |
| Preservation | SE: 298, 317-319 | | |
| Remediation | SE: 362-364, 384-385, 386-389, 468, 587-588 | | |
| Mitigation | SE: 362-364, 386-389, 468, 513 | | |
| Restoration | SE: 342, 344-345, 347 | | |
| 5. Sustainable land-use strategies | | | |
| | SE: 343, 348-349, 381-383, 388-389 | | |
| E. Mining | | | |
| Mineral formation | SE: 393-394, 397, 414-417 | | |
| Extraction | SE: 399-402, 404, 414-417 | | |
| Global reserves | SE: 398, 522-523, 527-528, 546 | | |
| Relevant laws and treaties | SE: 408-411, 412-413, 415, 417 | | |
| F. Fishing | | | |
| Fishing techniques | SE: 326, 379 | | |
| Overfishing | SE: 326 | | |
| Aquaculture | SE: 379 | | |
| Relevant laws and treaties | SE: 63, 326 | | |

| | | | |
|--|-----------------------------------|--|----------|
| G. Global Economics | | | |
| Globalization | SE: 50, 59 | | |
| World Bank | SE: 50 | | |
| Tragedy of the Commons | SE: 11, 30, 32 | | |
| Relevant laws and treaties | SE: 48-55, 58-61 | | |
| V. Energy Resources and Consumption | | | |
| A. Energy concepts | | | |
| Energy forms | SE: 518-521, 544-547 | | |
| Power | | | X |
| Units | | | X |
| Conversions | SE: 519, 545-546 | | |
| Laws of Thermodynamics | SE: 141, 144 | | |
| B. Energy Consumption | | | |
| 1. History | | | |
| Industrial Revolution | SE: 8, 11, 32, 229, 242, 367, 496 | | |
| Exponential growth | SE: 521, 530 | | |
| Energy crisis | SE: 520-521, 527 | | |

| | | | |
|---|--|--|--|
| 2. Present global energy use | SE: 521 | | |
| 3. Future energy needs | SE: 521, 527 | | |
| C. Fossil Fuel Resources and Use | | | |
| Formation of coal, oil, and natural gas | SE: 522-523, 528, 544, 547 | | |
| Extraction/purification methods | SE: 409, 524-528, 532-533, 545-546 | | |
| World reserves and global demands | SE: 527-528, 534-535, 544-547 | | |
| Synfuels | SE: 528 | | |
| Environmental advantages/disadvantages of sources | SE: 296, 503, 528, 530-535, 544, 546-547 | | |
| D. Nuclear Energy | | | |
| Nuclear fission process | SE: 537-538, 541, 544, 546 | | |
| Nuclear fuel | SE: 538, 547 | | |
| Electricity production | SE: 538, 541, 544 | | |
| Nuclear reactor types | SE: 538 | | |
| Environmental advantages/disadvantages | SE: 539-540, 544, 601 | | |
| Safety issues | SE: 539-540, 601 | | |
| Radiation and human health | SE: 601 | | |

| | | | |
|-------------------------------|--------------------------------|--|----------|
| Radioactive wastes | SE: 601, 608 | | |
| Nuclear fusion | SE: 541, 544-545 | | |
| E. Hydroelectric Power | | | |
| Dams | SE: 557, 559-560, 576-577 | | |
| Flood control | SE: 277, 281 | | |
| Salmon | SE: 558 | | |
| Silting | SE: 558 | | |
| Other impacts | SE: 558-559, 560 | | |
| F. Energy Conservation | | | |
| Energy efficiency | SE: 503, 513, 520, 546 | | |
| CAFE standards | | | X |
| Hybrid electric vehicles | SE: 504 | | |
| Mass transit | SE: 309-310, 313, 504 | | |
| G. Renewable Energy | | | |
| Solar energy | SE: 247, 562-566, 569, 576-579 | | |
| Solar electricity | SE: 562-564, 578-579 | | |
| Hydrogen fuel cells | SE: 570-573, 576 | | |

| | | | |
|---|--|--|--|
| Biomass | SE: 551-553, 555, 574-575, 576-579 | | |
| Wind energy | SE: 561, 566-569, 576-579 | | |
| Small-scale hydroelectric | SE: 558, 560, 576-577 | | |
| Ocean waves and tidal energy | SE: 559-560, 576-577 | | |
| Geothermal | SE: 503, 553-555, 576-579 | | |
| Environmental advantages/disadvantages | SE: 549, 550, 552-553, 555, 558-560, 565-566, 568-569, 572-573, 574-575, 576-579 | | |
| VI. Pollution | | | |
| A. Pollution Types | | | |
| 1. Air pollution | | | |
| Sources - primary and secondary | SE: 462-463, 468, 477-478 | | |
| Major air pollutants | SE: 451, 462-463, 465, 468, 476-479, 530, 553 | | |
| Measurement units | SE: 471 | | |
| Smog | SE: 66, 451, 465, 468, 476-478 | | |
| Acid deposition - causes and effects | SE: 467-468, 476-478 | | |
| Heat islands and temperature inversions | SE: 296, 318, 466, 468, 476, 478 | | |

| | | | |
|---|---|--|--|
| Indoor air pollution | SE: 270-272, 288, 553 | | |
| Remediation and reduction strategies | SE: 470-473, 474-475, 476-479 | | |
| Clean Air Act and other relevant laws | SE: 25, 49, 470-474, 476-479 | | |
| 2. Noise pollution | | | |
| Sources | SE: 295 | | |
| Effects | SE: 295 | | |
| Control Measures | SE: 295 | | |
| 3. Water pollution | | | |
| Types | SE: 435-440, 443, 446-449, 468 | | |
| Sources, causes, and effects | SE: 274, 302, 435-443, 446-449, 462, 468 | | |
| Cultural eutrophication | SE: 436, 447 | | |
| Groundwater pollution | SE: 439, 443, 446, 448 | | |
| Maintaining water quality | SE: 262-263, 442-443, 444-445, 447 | | |
| Water purification | SE: 442, 447 | | |
| Sewage treatment/septic systems | SE: 442-443, 444-445 | | |
| Clean Water Act and other relevant laws | SE: 35, 47, 59, 441 | | |

| | | | |
|---|--------------------------------|--|--|
| 4. Solid waste | | | |
| Types | SE: 582-584, 588, 606, 608-609 | | |
| Disposal | SE: 584-588, 608-609 | | |
| Reduction | SE: 589-591, 595, 608-609 | | |
| B. Impacts on the Environment and Human Health | | | |
| 1. Hazards to Human Health | | | |
| Environmental risk analysis | SE: 260, 286 | | |
| Acute and chronic effects | SE: 266 | | |
| Dose-response relationships | SE: 258 | | |
| Air pollutants | SE: 273-274, 276, 463-464 | | |
| Smoking and other risks | SE: 266 | | |
| 2. Hazardous chemicals in the environment | | | |
| Types of hazardous waste | SE: 582, 596-598, 603, 606-609 | | |
| Treatment/disposal of hazardous waste | SE: 599-600, 603, 606-609 | | |
| Cleanup of contaminated sites | SE: 602-603, 606, 609 | | |
| Biomagnification | SE: 275-276, 286-288, 440 | | |
| Relevant laws | SE: 602-603, 606, 608-609 | | |

| | | | |
|--|---|--|--|
| C. Economic Impacts | | | |
| Cost-benefit analysis | SE: 37, 39, 41, 58 | | |
| Externalities | SE: 39, 60 | | |
| Marginal costs | SE: 39, 60 | | |
| Sustainability | SE: 39-41, 60-61 | | |
| VII. Global Change | | | |
| A. Stratospheric Ozone | | | |
| Formation of stratospheric ozone | SE: 472-473 | | |
| Ultraviolet radiation | SE: 3, 257, 456, 472 | | |
| Causes of ozone depletion | SE: 3, 15, 20, 472-473, 476-479 | | |
| Effects of ozone depletion | SE: 3, 472-473, 476-479 | | |
| Strategies for reducing ozone depletion | SE: 3, 27, 472-473, 476-479 | | |
| Relevant laws and treaties | SE: 3, 27, 472-473, 476-478 | | |
| B. Global Warming | | | |
| Greenhouse gases and greenhouse effect | SE: 79, 484-485, 495-496, 505-506, 510-512, 519, 530, 549 | | |
| Impacts and consequences of global warming | SE: 211, 483, 491-492, 496, 497-501, 510-513 | | |

| | | | |
|--|---|--|--|
| Reducing climate change | SE: 49, 502-507, 510-513 | | |
| Relevant laws and treaties | SE: 49, 506-507, 510-513 | | |
| C. Loss of Biodiversity | | | |
| 1. Habitat loss; pollution; introduced species; endangered and extinct species | SE: 153-155, 158-161, 206, 207-211, 220-223, 244 | | |
| 2. Maintenance through conservation | SE: 212-217, 218-219, 220-222, 223 | | |
| 3. Relevant laws and treaties | SE: 212-213, 217, 220-221, 223 | | |
