What happens when industry leaders unite to create the next generation of online learning?

Think Pearson. Think Florida Virtual School. Think endless possibilities.

Combine Pearson's rich history of state-of-the-art solutions and services with Florida Virtual School's undisputed virtual learning leadership and you gain exciting possibilities indeed.

Pearson leads the world in online learning, technology, education services, and school solutions for pre-K through college. Pearson sets industry standards in student information and learning management systems, teacher professional development, career certification programs, and assessment products.

Florida Virtual School (FLVS) pioneered virtual learning for K-12 public schools, becoming the first to successfully bring any time, any place learning to students everywhere as part of a free, public education. FLVS directly teaches over 100,000 students annually and provides leadership and resources to schools and districts in 46 states and 39 countries.

These proven leaders now join forces to accelerate virtual learning opportunities to students around the world. Together, Pearson and FLVS share a vision to transform education, one student at a time.

"The Virtual Learning Academy Charter School has used Florida Virtual School course content exclusively since our school began serving New Hampshire students in January 2008. Our decision to partner with Florida Virtual School was based not only on the quality of their work, but on the fact that they are a non-profit school whose focus is on students. I highly recommend, without reservation, Florida Virtual School as a service provider for the development, support, and delivery of online course content and professional development."

Steve Kossakoski, Ph.D., Chief Executive Officer
Virtual Learning Academy Charter School

FLVS Top Honors

- 2000** Canadian Association Distance Education Award for Excellence
FLVS is the first non-Canadian distance learning program to be honored by CADE

Pearson K-12 Virtual Learning Powered by Florida Virtual School

Success is measured by the answer to one question: Are students learning? Every aspect of our award-winning program is fashioned around that premise. We exist to help you bring an innovative, student-centered approach to the development of your own unique e-Learning initiative. With our 14+ years of experience, you will benefit from a program that is built on best practices and allows your students to thrive.

Regardless of where you are in your program, we have choices to match your needs. Our courses can be imported into a variety of learning management systems (LMS), or we can host them for you. Many of our courses include honors components for students who want to be challenged, while other tools provide learning recovery options for students who need to recapture credit. We are also flexible with instructional options, allowing you to use our teachers or your own teachers with our professional development services.

Global School

Global School is much more than an online program. It is an experience. Our staff goes above and beyond to involve students in engaging learning experiences with others around the globe. Students participate in online discussions, clubs, competitions, newspaper teams, national forums, and more. All Global School teachers are highly-qualified and certified within the subject they are teaching. Teachers speak frequently and regularly with students and their parents. Parents and students can access courses and grades 24/7.

EasyStart

A seamless start-up e-Learning program, EasyStart provides access to our entire catalog and an LMS. We host the courses and provide the learning management system to move you forward quickly.

Per Enrollment Leasing

If you already have an LMS, leasing is a great option for you. We will upload courses to your LMS and also allow you to pay for student enrollments as you need them.

Site License

Enjoy the flexibility of subscribing to our course content to use as you choose. Subscribe to our hosted courses for some or all of your students and pick 20, 40 or our entire collection of over 100 courses. With the Site License option, students and teachers will have 24/7 access to content and courses can be taught in a classroom, home or lab setting.

Learning Recovery™

We believe in Learning Recovery, not just credit recovery. Students who need to recover credits are not synonymous with students who cannot or do not want to learn. Our Learning Recovery program provides your struggling students with teacher supervised, customized learning to meet their unique needs, when they need it. Learning Recovery courses are available to students at any time of year with your teachers or with our teachers. Learning Recovery courses provide students with pre-test, discussion-based assessments, projects, and post-tests.

Learning Recovery Courses:

Advanced Placement* Program

Have budget shortfalls limited AP offerings for your students? Has the struggle to find qualified teachers restricted AP course availability? Our AP courses are a cost-effective way to offer college-level courses taught by qualified instructors. Students taking FLVS AP courses consistently score above the state and national average. Our AP curriculum engages students through a variety of interactive components and assessments. To ensure student achievement, Pearson K-12 Virtual Learning powered by Florida Virtual School relies on effective teaching techniques: highest levels of Bloom's taxonomy, collaboration, discussion-based assessments, constructive feedback, interactive self assessments, and summative assessments.

AP Courses

Art History	Macroeconomics
Biology	Microeconomics
Calculus AB	Psychology
Calculus BC	Spanish
Computer Science A	Statistics
English Language & Composition	U.S. Government & Politics
English Literature & Composition	U.S. History
Environmental Science	World History

We also offer Advanced Placement Exam Reviews.

Our AP Exam Reviews provide the authentic AP exam experience to students. Students will be able to improve their test-taking strategies specific to AP exams and have access to real student work samples with explanations for graded entries.

AP Exam Reviews

Art History	European History
Biology	Macroeconomics
Calculus AB	Spanish Language
English Language & Composition	U.S. Government & Politics
English Literature & Composition	U.S. History

Professional Development Options

As an operating public school funded solely upon successful student completions, Florida Virtual School knows the pressure of ensuring student achievement. FLVS currently has a staff of 1,100 highly-qualified instructors, all of whom are provided with continuous professional development to enhance their skills. For over 100 years, Pearson has worked with our partners to create innovative ways of helping both students AND teachers reach their potential through education and development.

As a result, an entire collection of instructional tools has been created and perfected throughout the years which will directly benefit your instructional staff. Whether they are interested in learning new skills and strategies to use in the classroom or online, we can provide the support instructors need to motivate and engage students. Purchase any of the following solutions and customize them to meet your needs, or lease for just the instructional enrollments you need. Facilitated and non-facilitated options are available for all professional development courses.

Teaching Online Series

These online courses are filled with best practices for virtual school and classroom environments and can be accessed 24/7. Designed for teachers who are new to online learning as well as teachers who are more experienced, the Teaching Online series focuses on expanding skills by demonstrating specific strategies to optimize instruction. Also, classroom teachers will benefit greatly from the exposure to an online learning environment while refining their instructional techniques.

Teaching Online 101 provides an introduction to online teaching, with five modules of interactive content. Based on the best practices of 14 years of online instruction, this course is the ideal start for any level instructor wanting to learn more about teaching and/or learning in the online world.

Teaching Online 102 goes on to explore appropriate topics for a slightly more advanced online teacher. This course encourages continued growth in best practices and technology for educators.

Teaching Online 103 includes six interactive modules that provide comprehensive literacy strategies for instructors working with all level students, from struggling to advanced readers.

eTeacher's Guides

Our eTeacher's Guides perform the same function as traditional teacher's guides that accompany textbooks. Designed to complement our courses, eTeacher's Guides provide each teacher with their own virtual "walk through" of a course, including a review of course content, theme, pace, syllabus, assessments, answer key access, rubrics, and course materials.

Virtual Leadership Training

If you've been tasked with creating or managing a virtual school, you likely have questions and are looking for resources. Our two-day intensive training is designed to help you ask the right questions, do the right planning, and create a blueprint for action.

Customizable Trainings & Consultation

We are happy to provide your instructional staff with prescriptive training that focuses on your specific organizational needs. We will work closely with you to provide consultation and training that is truly your own.

"Over the past six years, all five of my children have been FLVS students. Robby is now a student at Harvard and was able to skip the first two years of economics in college and go into a higher level econ course. FLVS also made special accommodations for Kelsey, who is physically and visually impaired after having a stroke during brain tumor surgery."

Robert, parent
