INVESTIGATIONS

IN NUMBER, DATA, AND SPACE®

Program Author

Keith Cochran

Senior Project Director
Education Research Collaborative, TERC
Cambridge, Massachusetts

Keith Cochran is the co-director of the *Investigations Implementation Center* which supports teachers, schools, and districts that are implementing Investigations. He recently co-directed the development of *Investigations and the Common Standards* and was a senior author of the grades 3–5 *Investigations in Number, Data, and Space®* curriculum.

Keith's background is in classroom teaching and professional development in mathematics for teachers and administrators. His work in the Clark County School District (Las Vegas, Nevada) included the initial implementation of *Investigations* and serving as the district site leader for the field tests of *Bridges to the Mathematics Classroom*, *Developing Mathematical Ideas*, and *Lenses on Learning*. He has served on the staff of the Developing Mathematical Ideas Leadership Institutes and was the mathematics resource partner for Bank Street College's Teachers for a New Era initiative.
