Activities for discussion, projects in class and more!

Activity 1- Earth Day. Using links from above, read the articles etc. and then answer the following questions.

- The celebration of Earth Day comes from________
- ¿What else do you know about Earth Day?
- In my community we celebrate Earth Day with_______
- How can each of us reduce, reuse and recycle?
- What is renewable energy?

Activity 2- The beauty of our world. Look online for a place either in the French speaking world or ancient Roman world that you find to be among the most beautiful places you have ever seen. Then answer the following questions. You can use the links to help you express your emotions either in French or in Latin.

- How does nature inspire us?
- What are the characteristics that make a place beautiful for you?
- My favorite activities to do in nature are________
- Share the place you chose with the class- Share a picture, video etc.
- What called out to you about this place?
- What did you feel when you saw it?
- Describe the place
  - Was it clean and well maintained/taken care of?
  - How would you improve it? ¿Cómo mejorarías el lugar?
  - How would you take care of it for future generations?
Activity 3- Our Environment - Using links from above, watch the videos, read the articles etc. and then answer the following questions and complete the following projects:

- We all live together in this world. Why is it important to take care of our plane?
- Why is it important to recycle?
- How can we take better care of our planet?

Make a list of changes that we can do in our daily lives and in our communities and describe the benefits that can happen in our lives and in our communities.

<table>
<thead>
<tr>
<th>The Change</th>
<th>Benefit to Our Environment/Our Lives</th>
</tr>
</thead>
<tbody>
<tr>
<td>Example: Recycling plastic bags</td>
<td>Less end up in our landfills</td>
</tr>
</tbody>
</table>

Select three things from your list and do them for a full week with your family or in your community.
- Later talk to the class about your experience. You can use pictures, videos, Ppts etc. to help with your presentation.
- You should include the following:
  - What three things you chose and why?
  - What were the results and the impact of your actions? How did you improve the environment?
  - What do you plan on doing after this experience, will you continue with what you are doing? Yes or no and why/why not?
  - Will you do something different in your life as a result of having done this activity?

Activity 4-Communities and architects. Using the links below, select either French or Roman architects and read, listen and look at their works and then answer the following questions:

- Who did you select and why?
- What were your first impressions when you saw their works?
- What did they make you feel?
- How do their works reflect their culture?
- How are they similar to each other, how are they different?
- Who were these architects influenced by?

ARCHITECTES FRANÇAIS
Activity 5-Your community of the future. Imagine you are an architect and you are thinking about the communities of the future and what they will be like. You can use either links from above as well as links from below related to the French or the Romans and the innovations they made that changed the way we live today. With that in mind, answer the following questions and complete the following activities/projects.

- What are the necessary elements to have a sustainable community that works well?
- Describe how your community is planned in order to facilitate recycling as well as the efficient and effective use of its materials and resources.
- How will the neighborhood of the future be? Describe it to a classmate.
- Draw your neighborhood/community of the future and write about it. Then chose one of the following projects:
  - Make a model of your community using recycled materials to be part of an exhibit or show in your classroom or school
  - Create a PPT of your community of the future.

Roman Baths and Hygiene in Ancient Rome
Soon it will be Earth Day. You need to put on a festival/exhibit/expo either in your school or in your community with the theme of celebrating our environment. It can be a day filled with music, favorite foods, a gallery of artworks created from recycled materials, instruments made from recycled materials, as well as donate/ recycle materials to others or for special causes.

- How do other places around the world celebrate Earth Day? How are they similar, how are they different?
- How will you describe your celebration?
- Why is it so special and meaningful to you and your community?
- How will you make this event memorable?
- How will you promote your event?
- Create a poster, a ppt, a flyer and/or video to promote your events.
- What foods will you have present as part of your celebration?

**Activity 7- Collage made from recycled materials**—Follow the instructions below to make a collage from recycled materials.

**Supplies needed:**
- Old magazines, plastics, old clothing, cardboard etc.
- Scissors
- Glue
- Paper/poster board as the base for your collage

**Instructions:**
1. Take your paper/poster board and if you want to, first draw what you want to decorate, whether it be a planet, a tree, the sea etc. you are only limited by your own imagination!
2. Take your recycled materials and start cutting them into pieces that you want to use in creating your collage.
3. Take each piece and using the glue, put some glue on the back and then place it and press it onto your paper, where you want it to be.  
4. Keep cutting and gluing the various materials onto the different parts of your collage until you have completely covered the area.  
5. Let it dry and admire how beautiful it looks!  
6. Talk about the experience with either a small group or with the entire class. Use either words in French or Latin to describe colors, textures and materials.  
6. Create an art gallery either in your classroom or in the hallway.
